Annual Report 2018-19

The Baby Care Foundation (TBCF) is a non-profit community organization that was created by all Trustees on April 2017. The organization has established

An endowment fund, which will be preserved permanently and only the income generated by the fund will be used to make grants to organizations.

The Foundation is mainly dedicated to provide humanitarian support to qualified not for profit organization throughout all states of India.

The Baby Care Foundation depends on corporate funds, philanthropic donors, volunteers and well wishers for managing such massive operation. The various operations include the technological innovations, quality standards, Operation Management, Back Office Operations and volunteers. These Operations are processed and observed by all the section we have in TBCF such as Child Education, Child Labour Cases , Other Health Care Sections.

Registered as not for profit organization in 2017 Under Bombay Public Trust Act 1950 and donation qualifies for income Tax Rebate under section 80G.

We focus on the basics such as education, health, food and shelter. Our approach is holistic and our style hands on. We are on the ground, where it matters most for child. We enable both families and communities.

Success Stories of The Baby Care Foundation

We done five successfully programmers such as:-

1. Donation of Clothes.
2. Notebooks.
3. Diwali Cracker.
4. School Shoes.
5. Sports Equipment.
6. Agriculture Support.

Donation of Clothes:-

While donating clothes is deeply satisfying our organization, The Baby Care Foundation runs clothes donation campaign, where we provided clothes to the underprivileged living in the open on the streets (Dattanagar in Dombivali East Mumbai Maharashtra),

Our Endeavour is to reach out to as many donors & volunteers as possible to help us bring the much needed change in society. Through our activities we help others to experience the happiness which comes from doing a noble deed.

Donation of Notebooks:-

Donating an educational kit as the gift of education is the gift that lasts a lifetime.

How does it feel not having a roof over the head? It is hard for us to even imagine, but think about those for whom living on the streets is a reality. We know their life is stressful and full of challenges. We cannot solve the problem of homelessness overnight but we can definitely support

early education for the homeless children in our society. Education is a continuous and life changing process and we at The Baby Care Foundation feel that no children should be deprived of their right to education. We need your support in providing Educational Kit for Children in need.

The Baby Care Foundation runs Note Books Donation Campaign in addition to this, they also want to encourage these children into school stationery should be an integral part of a child's growing up years (Swami Vivekananda Vidyamandir Dombivali East Mumbai Maharashtra).

Donation Cracker to Poor and Needy Children's:-

The Baby Care Foundation brings a smile on face and bliss on the heart, Real Diwali is celebrating it by sharing gifts to poor peoples, Slam areas etc.

Buy sweets, crackers and small things which brings a smile to those peoples. It may take a while to do but stays at heart a lot for someone. Make this Diwali by gifting such

persons and celebrate with them which make you feel blessed Diwali. While we can choose to Shum crackers not due to their cost.

Donation of School Shoes:-

Shoes are symbolic of pride and give confidence to young learners knowing that they can walk to school in comfort, children attending government schools in India are from very poor families. Parents cannot even afford a pair of school shoes for their children. Through shoes alone do not solve problems they face, but we all agree that it helps children build their self-esteem and give hope. A pair of shoes will

ensure a child's feet are protected from infection and injuries. A child in full uniform attending school is a delight to watch. It is a common site to see children walking to Government schools without even slippers, not to talk of shoes. Many kids end up with diseases that kill or seriously threaten their health, because of a disease or fungus they picked up while walking barefoot to school. Providing school shoes for needy students is an effective way to provide protection to their feet on their way to school and instill a sense of hope. The Baby Care Foundation done shoes donation for school students at (Sindhudurg Maharashtra).

Donation of Sports Equipment:-

A School is a place that opens up endless opportunities and possibilities for a child, but unfortunately that is not the case for a lot of

economically disadvantaged children in India. They even lack access to basic facilities such as a library or sports equipment. The massive potential of these children often goes unexplored.

In addition to this, they also want to encourage these children into sports and games should be an integral part of a child's life growing up years. But

due to financial constraints, their parents can't afford to buy toys and sports equipment. Distribute of sports equipment at Zilla parishad school kasa Dhanu Palghar Maharashtra.

Education

Agriculture Support:-

The Agricultural Support Services Project aims to develop, on a pilot basis, organizational structures for producers that represent their needs and interests; and improve the institutional capacity and quality of agricultural services delivered by public and private institutions and producer organizations; and

improve the flow of information for all stakeholders. The project consists of five components: 1) This component will support capacity building for producers organizations (both local and national) and inter-professional organizations to improve market access and provide, manage, and finance services to their members. 2) This component will support public, cooperative, and private services that deliver producer services

focused on increasing quality, value added. 3) This component will support public, cooperative, and private services that deliver producer services to livestock producers, with particular focus on improving quality of services and their sustainability through progressive transfer and cost recovery. 4) This component will aim at protecting Tunisian produce from plant diseases and predators, and at protecting consumers from pesticide residues, and thereby increasing the value and market access of produce. 5) This component will maximize the coverage, reliability, and availability of statistics and information for all parties making choices affecting the sector. It will also support project management.
